Cisco Meraki Access – Scalable, Reliable, Secure.

As businesses evolve to meet the needs of an increasingly dynamic, hybrid workforce, ensuring secure access is more important than ever.

Compucom Managed Cisco Meraki Access empowers organizations with consistent, secure, and scalable connectivity using industry-leading Cisco Meraki Switching and Meraki Secure Wi-Fi, backed by our expert services.

Designed to ensure your teams have access to their data, applications, and systems across your business wherever and whenever they need it.

Combining the power of Wi-Fi with experienced management.

Addressing Common Challenges

- **Consistency across locations:** Users expect reliable and consistent Wi-Fi access from all branches.

- **Network quality:** Congested network traffic or poorly-routed traffic wreaks havoc on users' network quality, causing frustration and loss in productivity.

- **Complex infrastructures and legacy equipment:** Mismatched, outdated, and poorly configured equipment cause outages and impair network performance.

- **Security concerns:** Increased traffic from people, devices, and servers creates opportunities for bad actors to infiltrate and overwhelm networks.

Delivering Desired Outcomes

- **Reliable access:** Deliver consistent performance and prevent failure through redundancy and automation.

- **Network visibility:** View your environment with access to analytics that help you make strategic decisions.

- **Secure connectivity:** Protect your network across locations without sacrificing experience.

- **Fast deployment:** Scale quickly and efficiently with low-touch provisioning and expert support.

- **Lower network costs:** Capitalize on your existing investments, create a path for scalability, and enable next-generation technologies.

The Compucom Advantage: Solutions that Deliver

Organizations are facing immense pressure to evolve quickly while balancing reliability, cost, and experience. We're here to help you build a smarter, more resilient, and cost-effective network with our Managed Network Services + Cisco Meraki Access solutions – specifically designed to address the shifting dynamics of today's IT landscape.

Many providers can deliver technology, but fewer provide both technology and services — and even fewer do it end-to-end, sustainably, and at scale. Compucom does it all.

For over 35 years, we've helped simplify infrastructure, improve user experience, and reduce operational risk for our customers – delivering the performance, compliance, and transparency modern business demands.
